Our Natural Resources in a Changing Environment

SEPTEMBER 4
Dr. Martha Shulski, High Plains Regional Climate Center, School of Natural Resources
*Delivering useful and usable climate information products*

SEPTEMBER 11
Dr. Larkin Powell, School of Natural Resources
*Conserving Nebraska’s Biodiversity: Challenges and Opportunities on Private Lands*

SEPTEMBER 25
Dr. Don Wilhite, School of Natural Resources
*The Applied Climate Science in SNR: Past, Current, and Future*

OCTOBER 2
Dr. Michael Hayes, Mark Svoboda, Dr. Cody Knutson, Dr. Tsegaye Tadesse, and Brian Fuchs
National Drought Mitigation Center, School of Natural Resources
*From Lewellen to Delhi: Drought Risk Management for the World*

OCTOBER 9
Dr. Dan Snow, School of Natural Resources
*Good Water – A story of Great Plains water quality*

OCTOBER 16
Dr. Arthur I. Zygielbaum, Center for Advanced Land Management Technologies, School of Natural Resources
*Coloring in the numbers*

OCTOBER 23 - AT 2 pm
Dr. Bethany A Bradley, Department of Environmental Conservation, University of Massachusetts-Amherst
*Plant invasions and global change, lessons from biogeography*

OCTOBER 30
Dr. Ulf Buentgen, Head of Dendroecology, Swiss Federal Research Institute for Forest, Snow, and Landscape
*Frontiers in tree-ring research at the interface of archaeology, climatology and ecology*

NOVEMBER 6
Dr. Steve Comfort, School of Natural Resources
*My water is contaminated, now what? How UNLs Environmental Restoration Science program can help*

NOVEMBER 13
Dr. Matt Joeckel, Conservation and Survey Division, School of Natural Resources
*The Keystone Pipeline: Observations on geology, society, and the Nebraska Geological Survey*

NOVEMBER 20
Dr. Stephen Wood, Vice President, DigitalGlobe Analysis Center
*TBD*

DECEMBER 4
Dr. Lisa Pennisi and Dr. Mark Burbach, School of Natural Resources
*Preliminary Results of an Assessment of a Nebraska Game & Parks Commission Voluntary Public Access and Habitat Incentive Program*
