

SNR MOVIE NIGHT

March 1 | 7-9pm

Hardin Hall Auditorium
3310 Holdrege St

The Future of Water

Beyond the Mirage is a journey deep into the fascinating water shortage that is unfolding across the Western United States. Avoiding the mounting risk to our economic and social systems is possible, in large part by learning from countries like Israel that have already navigated successfully from water insecurity to abundance both for humans and the natural environment.

Stay after for a discussion of the documentary with a panel of experts.

FREE parking* and snacks available for purchase with proceeds benefitting SNR student organizations.

SCHOOL OF NATURAL RESOURCES

*Free parking includes all Hardin Hall spaces except meters and reserved facilities spaces
