The Nebraska Cooperative Fish and Wildlife Research Unit and the School of Natural Resources at the University of Nebraska are accepting applications for a Research Supervisor position to assist in canid distribution research in Western Nebraska (swiftfox.unl.edu). The primary objective of this project is to assess canid geographic distribution and interspecific interactions. The project focus specifically on the swift fox, the rarest native canid species in the Midwest grasslands and an endangered species in Nebraska.

The successful applicant will be highly motivated with a strong work ethic, and have a passion for field/lab research, excellent communication skills, attention to detail, and the ability to work in collaboration. Field work and data collection will involve conducting camera trap surveys and hair and scat collection from canid species in remote locations of Western Nebraska, with most of the time spent in the field; however the successful applicant will assist with administrative duties related to the project and help direct field technician workers. Applicants must be comfortable working outside in adverse weather conditions and remote locations, as well as interacting with peers, the public, private landowners and cooperating agency staff. Familiarity with camera trap survey methods, GIS, and data management are a preferred.

This position is a grant-funded position. Review of applications will begin June 15, 2016 and continue until a successful applicant is identified. UNL is committed to a pluralistic campus community through affirmative action, equal opportunity, work-life balance, and dual careers.

**General qualifications:**
- Bachelor’s degree in Wildlife Biology, Zoology, Biology, Natural Resources, or related field or equivalent education/experience, plus one year field/lab or related experience.
- Experience with basic and skilled field/lab procedures is required.
- Basic data collection, analysis and report writing skills are essential.
- Project management and supervisory experience is preferred.

**Special license or certification required:**
- Valid driver license with an impeccable driver record in the last 5 years.
- Up-to-date CPR/First Aid training prior to employment.

**TO APPLY**
